Information legal mind and to culture effect doer patterns, correlations and potential factors determination for quantitative and quality methods using analysis will be done.

Legal mind and legal of culture place each how in society, that's it including In New Uzbekistan too of crime prevention in getting solution doer role plays. These are the elements of crime prevention to get help giving one how many methods:

LAWS UNDERSTANDING AND UNDERSTAND:

- Legal consciousness: this citizens in the middle legal right and obligations understanding and to understand means. In New Uzbekistan legal the mind bring up the public their behavior and criminal of actions consequences in order puter laws about teaching own into takes. People from laws informed to them. compliance to do probability more.

LAW PRIORITY PROMOTE TO DO SOCIETY:

- Legal Culture: legal culture society inside common values, beliefs and legal to the system was relationship cover takes. In New Uzbekistan the law priority and justice appreciate legal culture promote to do important important have. Strong legal culture justice and legal of processes importance underlining, criminal to behavior obstacle does.

Legal to the system believe:

- Legal consciousness: if people legal to the system trust means they. illegal to the activity appeal from doing conflicts solution to do for to him appeal to do can. Legal mind court, law protection to do and another legal to institutions confidence to strengthen contribution adds.

CORRUPTION BEFORE GET:

- Legal Culture: corruption reprehensible strong legal culture of crime prevention to get help will give. The right protection to do offices or court in the system corruption the law priority break and crime developed going to the environment contribution addition can. Rejects corruption. legal culture of crime prevention get for very important.

Society attraction to do and cooperation:

- Legal consciousness: communities their own legal rights and obligations about information if they get it, they of crime prevention get in his actions active participation reach can. Legal mind individuals the right protection to do organs with in cooperation to work, doubtful actions about message to give and public police initiatives with to engage encourages.

DISPUTES ALTERNATIVE SOLUTION DO:

- Legal Culture: mediation and arbitration such as disputes solution of doing alternative methods supportive legal culture bring up disputes solution to do for calm and legal tools present reach through of crime prevention to get help will give. This approach of people complaints solution to do for illegal to actions appeal to do probability decrease can.

EDUCATION AND REHABILITATION:

- Legal consciousness: legal mind crime happen reached individuals rehabilitation to do also a role in programs to play can. Criminal of behavior legal consequences about information to give rehabilitation to the process contribution addition and recidivism decrease can.

MAN RIGHTS PROMOTE DO:

- Legal Culture: legal culture within a person rights to emphasize each one of the person value and rights appreciate society Create through of crime prevention to get help will give. Man rights respect to do criminal to the activity obstacle to do and safer and fair to society contribution addition can.

In New Uzbekistan legal mind and legal culture development of crime prevention to get indispensable is part of This elements persons the law who understands and respect legal to the system trustworthy, legitimate and fair environment in creating active participation which society to build contribution adds.

Findings of society of crime prevention to get approach in formation legal mind and of culture mutually dependence emphasizes. Legal education programs and the public attraction to do initiatives legal to principles collective loyalty in development important role plays. In research this of results politicians for effect discussion will be done and In New Uzbekistan legal mind and culture strengthening strategy offer will be done.

CONCLUSIONS:

Summary by doing in other words, research In New Uzbekistan of crime prevention in getting legal mind and legal of culture solution doer role emphasizes. Legal education, social values and reduced criminal activity between positive dependence purposeful interventions necessity emphasizes. Politicians legality culture development and of crime prevention get according to actions strengthen for wide comprehensive legal education programs and the public attraction to do initiatives priority importance to give need.

Forward depending on the politicians different different to demographics reach for different from platforms using, stable legal education programs investment inputs need. Legal culture strengthening for state offices and citizenship society between cooperation own into received to the public based on initiatives encourage need. Developing society to the dynamics based on strategies adaptation, In New Uzbekistan of crime prevention to get strong and efficient the basics provide for constant research and evaluation necessary will be.
