Keywords: *military-patriotic, Homeland, science; historicity; accuracy and agility; regularity; activity; harmony of educational and educational work; consistency of the educational process.*

The large-scale reforms carried out during the years of independence in our country became an important foundation for strengthening national statehood and sovereignty, ensuring security and law enforcement, inviolability of the borders of our state, the rule of law in society, human rights and Freedoms, an atmosphere of interethnic harmony and religious tolerance.

In today's era of globalization and sharp competition, armed conflicts and confrontations, new threats and risks that are taking place in different parts of the world, including our region, are setting up urgent tasks that cannot be delayed in front of us.

It is in such conditions that the youth of our country is brought up in the spirit of patriotism, including military-patriotism, high spiritual and moral values, deeply instilling in their minds the need to preserve peace and harmony as tears, "the people and the army are one body, one soul!" on the basis of a noble idea, it is required to combine the strength and capabilities of ministries and departments responsible for youth education on the basis of one idea, one goal. The decision of the Cabinet of Ministers of the Republic of Uzbekistan on measures to bring the effectiveness of work on the education of young people in the spirit of military patriotism to a new level, to further increase the activity of state and non-governmental organizations and other institutions of civil society in this direction, to instill feelings of patriotism — In 2027, a concept was developed to improve the effectiveness of work to educate young people in the spirit of military-patriotism.

In the concept, the education of young people in the spirit of military-patriotism is called "Homeland — great, duty — holy!" it is organized under a conceptual idea, in which the main task is to educate young people in the spirit of patriotism, develop comprehensively, form a person with strong opinions and beliefs.

The main content and essence of this idea has been established in the growing generation as the formation of such qualities as respect and reverence for our great history, our long — standing values, the exaltation of national spirit and pride, the need to preserve and protect invaluable wealth-peace and tranquility, and, if necessary, upbringing in the spirit of

The system of education of young people in the spirit of military-patriotism and its basic principles are the quidagi:

Educating young people in a military-patriotic spirit is a multi-stage, systematic, purposeful and coordinated activity of state bodies, public associations and other organizations, regardless of nationality, language and profession, aimed at forming a sense of loyalty to the motherland in young people, educating them as individuals capable of fulfilling their civil duty and constitutional obligations, protecting the interests of society and

The system of educating young people in the spirit of military-patriotism is a continuous process, consisting of a complex of interconnected political-legal, socio-economic, ideological, cultural-educational activities.

The work of educating young people in the spirit of military-patriotic is carried out in accordance with the Constitution and laws of the Republic of Uzbekistan, decisions of the chambers of the Supreme Assembly of Uzbekistan, decrees and decisions of the president of Uzbekistan, decisions of the Cabinet of Ministers, universal statutes of the Armed Forces of the Republic of Uzbekistan (next — The Armed Forces) and other legislative acts.

The system of educating young people in the spirit of military patriotism consists of:

Preschool education, general secondary education, vocational education and higher education institutions that carry out work aimed at the formation and development of values of socio-spiritual significance in the educational process, the spirit of love and loyalty to the motherland; state and non-profit organizations that carry out mass and military-patriotic work, as well as other organizations.

The following are the basic principles of educating young people in the spirit of military patriotism:

science;

historicism;

accuracy and agility;

regularity;

activism;

harmony of educational and educational work;

consistency of the upbringing process;

reliance on positive results and achievements achieved in the field of upbringing in the spirit of military-patriotism.

In place of the conclusion, to educate young people in the spirit of national idea and devotion to the motherland, to deeply instill in their heart and mind that the protection of the Motherland is an honorable and sacred duty;

To be proud of our ancient history and culture, our national heroes who selflessly fought for the independence and prosperity of our native land, to form a feeling of being worthy of them, to strengthen confidence in the power and potential of our national army;

Strengthening the understanding of the need for physically strong and spiritually mature youth for our national army, that military service is a sacred duty for every citizen of Uzbekistan, as well as theoretical and practical skills in this regard;

Formation of skills in young people to approach the political and social processes taking place around us and in the world based on our national interests, ideological immunity to various internal and external threats;

Achieving that they can make quick and independent decisions in any complex situations.
