Kalit so'zlar: *Milliy universiteti, Turkiston davlat niversiteti, fakultetlar, universitet olimlari, "O'ZMU xabarlari"*

The National University of Uzbekistan named after Mirzo Ulug'bek is the and leading higher education institution not only in Uzbekistan, but also in Central Asia. During its one-century activity, the university has trained more than 100,000 highly qualified specialists, provided a great service to all sectors of the national economy, and achieved world-renowned successes in various fields of science.

Creating a science school in the vast world of science is a very rare and honorable task. In this regard, the traditions founded by such geniuses as Muso Khorezmi, Abu Rayhon Beruni, Abu Ali Ibn Sino, Mirzo Ulug'bek have been adequately continued by the scholars of UZMU. About 50 such scientific schools operating in this center of science have received high recognition from world scientists. Academicians Habib Abdullaev, Obid Sodiqov, Sa'di Sirojiddinov, Toshmukhammad Sarimsoqov, Jo'ra Musaev, Makhmud Salokhiddinov, Shavkat Alimov, Azimboy Sadullayev founded scientific schools among them. 23 eminent scientific of the university were elected president and vice-president of the Academy of Sciences of Uzbekistan. A total of 107 scientists have achieved academic degrees. About 150 of the women scientists received the scientific degree of doctor of science and the title of professor. Many graduates of

this institution are successfully working in foreign higher education institutions. A bright example if this is Eduard Yoqubov, the president of the Holon Institute of Technologyn Israel, Dr Amir Makhmudov, the official of the US Department of Health and Zoir Ibragimov a professor at the California State University. Abdulla Oripov, Erkin Vohidov, Said Ahmad, Ozod Sharafiddinov, Turg'un Azlarov, Suyuma G'anieva, among the intellectuals who studied at this university, were awarded the title of Scientists of the Republic of Uzbekistan, for their great services. Order and other awards. To date, more than 30 UZMU students have received the Presidential scholarship, 25 have received state scholarship named after Mirzo Ulug'bek and more than 30 have received state scholarships named after Alisher Navoiy. Dozens of talented students became world famous as winners of international science Olimpiads and sports competitions.

Today 29 academicians, more than 150 doctors of science and professors, more than 400 candidates of science, doctors of philosophy and associate professors are working at the National University, more than 200 young scientists and more than 500 talented students are conducting scientific research. UZMU, which has a huge scientific potential, is the main higher education institution in the republic. State education for all universities in it standarts curricule and programs are being prepared and implemented in the educational process. In order to closely connect theoretical knowledge with practice, there are 3 field-practice areas of UZMU, 32 educational and scientific laboratories, 3 educational and scientific experimental centers, 1 inter-university scientific laboratory and 2 material and technical facilities of unique facilities, base is being improved. At the same time, involving students and young people in scientific activities, participation in grant contests and scientific research institutions continues consistently. UZMU is more than 100 higher educational and scientific institution of 32 developed countries cooperates with institutions. M.V. Moscow named after Lomonosov state university, Seoul National University, California State University this is one of them. The information-resource center is equipped with modern technologies and connected to the internet, and the library fund has about 4 millions books. The Chingiz Aytmatov and Uzbekistan Exposition, established in October 2017 at the National University of Uzbekistan, has become an educational center for students. Students from different regions live in modern residences in Yoshlik student campus and have all the opportunities to improve their intellectual level and physical culture. The team of the National University of Uzbekistan, which has century-long history, rich traditions and innovative ideas, will further increase the achievements in the field of science and education and make a more worthy contribution to the development of the Motherland is working diligently and enthusiastically for the sake of success.
